Preface

*On the memorable occasion of the completion of 10 successful years of NRI Medical College & General Hospital, Chinakakani, Guntur District, Andhra Pradesh, the Academic wing of the NRI Medical College is very much pleased to bring out the “**ACADEMIC DIARY 2014**” depicting the activities of the Pre-Clinical, Para-Clinical, Clinical, and Superspeciality Departments of the Institution.*

As you are aware that the image and quality of any Medical College depends on the learned Faculty members, their involvement in the Research and Academic Activities, in addition to the Infrastructure, Equipment and Investigative Facilities of the College & Hospital.

As you go through the pages of the Diary, you can notice the excellent efforts put forth by each Department. The senior Faculty members, inculcating the junior Doctors the value of hard work, with utmost dedication to their duties and with their innovative ideas, stimulating them to publish their work. They encourage them to participate in CMEs and Conferences, which gives them an opportunity to interact with senior members of their respective branches, to share their vast experience.

We wish to congratulate and appreciate all the Faculty members and request them to continue their commitment with the same spirit to get more laurels to their Department and the Institution, to project our NRI Medical College & General Hospital as one of the best Medical Institutions in our State and our Country.
